acf_set_options_page_menu( )

- Description
- Requirements
- Parameters
- Example

Description

This function has been deprecated. Please use the acf/options_page/settings filter instead.

Modifies the default Options Page menu name, displayed in the admin menu.

Requirements

- Options Page Add-on version 1.2.0 or later

Parameters

```
acf_set_options_page_menu( $menu_name );
```

- `$menu_name` *(string) (Required)* The menu name for the default Options Page. Defaults to ‘Options’.

Example

This example demonstrates how to change the default Options Page menu name to ‘Extra’.

```
if( function_exists('acf_set_options_page_menu') ) {

    acf_set_options_page_menu( __('Extra') );

}
```
