Members database tables

- {$table_prefix}bp_invitations
- {$table_prefix}bp_optouts

When first activated, the Members component creates 2 tables. One to store invitations to join the site or a Groups component single item (`{$table_prefix}bp_invitations`), the other to store information about people who opted out to site invitations (`{$table_prefix}bp_optouts`).

> The `{$table_prefix}` value is `wp_` by default but it can be customized within the WordPress wp-config.php file.
