`Since`

0.2.3

Properties

canceled

• `Readonly` **canceled**: `boolean`

Whether the dialog was canceled.

filePaths

• `Readonly` **filePaths**: `string`[]

An array of file paths chosen by the user. If the dialog is cancelled this will be an empty array.

bookmarks

• `Optional` `Readonly` **bookmarks**: `string`[]

macOS only. An array matching the `filePaths` array of `base64` encoded strings which contains security scoped bookmark data. `securityScopedBookmarks` must be enabled for this to be populated.
