Manage plans

- Set up a new plan
- Change an active plan {#upgrade-plans}
- Sales-led products
- Next steps

You can add and manage your plans from the billing portal in Docker Home. Within the billing portal, you use the product catalog to view self-serve Docker products, while the Overview page shows your active plans with options to upgrade or cancel.

Set up a new plan

You can purchase Docker Team, Docker Business, and other products through the product catalog:

1. Sign in to Docker Home, then choose your individual account or your organization account.
2. Go to **Billing**.
3. Select **Browse products**.
   - The **Products** page contains products and upgrades available for self-serve.
   - Some products in the catalog may apply to individual accounts, organization accounts, or both.
   - Each product tile uses an account-type flag so you know the difference.
4. Select **View plans**, then choose the plan you want to add to your Docker subscription.
5. Verify your billing details, continue to payment, and complete checkout.
   - Optional. To add a VAT number, select the **I'm purchasing as a business** checkbox and enter your Tax ID.
   - Your VAT number must include your country prefix. For example, enter `DE123456789` for a German VAT number.

To upgrade to Docker Pro, go to the Docker pricing page and select **Buy now**.

Change an active plan {#upgrade-plans}

To change a plan you already have, sign in to Docker Home, go to **Billing**, then go to **Active subscriptions**. Each plan tile has a control, such as an action menu or a **Manage** button, that opens the options for that plan.

The available options depend on the plan. For example, Docker plans let you add seats or switch to annual billing, while product plans let you upgrade or downgrade tiers, add units, or turn auto-renewal on or off. For the steps for each plan and when the change takes effect, see the plans catalog.

Sales-led products

Some products are sales-led. You must contact sales to opt in.

Next steps

- Learn about available plans
- Set up payment information
- View invoices
- To learn more about managing your billing details, see Billing.
- To learn about sales tax and VAT, see Taxes.
