-

Goal

Edit the settings of the default core Olivero theme to change the color scheme and to add a logo.

Prerequisite knowledge

[Concept: Themes](#)

Steps

1. In the *Manage* administrative menu, navigate to *Appearance* (*admin/appearance*).
2. Under *Installed themes*, you will find Olivero listed as your default theme. Under *Olivero (default theme)*, click *Settings*.

Installed themes

Olivero 11.0-dev (default theme)
A clean, accessible, and flexible Drupal front-end theme.
[Settings](#)

3. Under *Logo image*, uncheck *Use the logo supplied by the theme*.

^ Logo image

☐ Use the logo supplied by the theme

Path to custom logo

Examples: logo.svg (for a file in the public filesystem), public://logo.svg, or core/themes/olivero/logo.svg.

Upload logo image

No file chosen

If you don't have direct file access to the server, use this field to upload your logo.

4. Under *Upload logo image*, locate a logo file and upload it to your site. Note: You can also set a universal logo for all themes under *Appearance > Settings* (*admin/appearance/settings*). A custom logo for your theme will override the universal logo. Once you have selected the file you would like to upload, you will see its filename next to the *Choose File* or *Browse* button in your browser.
5. Under *Olivero Utilities*, you can choose to use a different color scheme for the theme. You can choose from a list of existing color scheme's, or enter a color and the core software will generate a new scheme based on that color.
- For example, use the following custom color:

Field	Color
Primary base color	#7db84a (green)

Note: You can also use a color picker by pressing the colored square on the right to select a color of your choice. The web color codes will be added for you.

6. In order to save your changes and see the updated colors and logo on your site, click *Save configuration* at the bottom of the page.
7. Click *Return to site* or *Home* in the toolbar to verify that you have updated the core Olivero theme settings for your website.

Welcome!

You haven't created any frontpage content yet.

Congratulations and welcome to the Drupal community.

Drupal is an open source platform for building amazing digital experiences. It's made, used, taught, documented, and marketed by the [Drupal community](#). Our community is made up of people from around the world with a shared set of [values](#), collaborating together in a respectful manner. As we like to say:

“

Come for the code, stay for the community.

Get Started

There are a few ways to get started with Drupal:

1. [User Guide](#): Includes installing, administering, site building, and maintaining the content of a Drupal website.
2. [Create Content](#): Want to get right to work? Start adding content.

Note: the information on this page will go away once you add

Expand your understanding
