

Bugs, features and discussions

- [Security](#)
-

The [Forgejo issue tracker](#) is where **bugs** should be reported and **features** requested.

Dedicated repositories in the [Forgejo organization](#) cover areas such as:

- the [website](#)
- the [governance](#)
- the [Code of Conduct](#)
- the [sustainability and funding](#).

Other discussions regarding all **non technical aspects** of Forgejo, happen in a dedicated [issue tracker](#) and in the [matrix chatroom](#).

Security

The [security team](#) takes care of security vulnerabilities. It handles sensitive security-related issues reported to security@forgejo.org using [encryption](#).

The security team also keeps the content of the [security.txt](#) file up to date.

The private GPG key for `security@forgejo.org` is shared among all members of the security team and not stored online.
