

Helm Chart Registry

- [Requirements](#)
 - [Publish a package](#)
 - [Install a package](#)
-

Publish [Helm](#) charts for your user or organization.

Requirements

To work with the Helm Chart registry use a simple HTTP client like `curl` or the `helm cm-push` plugin.

Publish a package

Publish a package by running the following command:

```
curl --user {username}:{password} -X POST --upload-file ./{chart_file}.tgz
https://forgejo.example.com/api/packages/{owner}/helm/api/charts
```

or with the `helm cm-push` plugin:

```
helm repo add --username {username} --password {password} {repo}
https://forgejo.example.com/api/packages/{owner}/helm
helm cm-push ./{chart_file}.tgz {repo}
```

Parameter	Description
<code>username</code>	Your Forgejo username.
<code>password</code>	Your Forgejo password. If you are using 2FA or OAuth use a personal access token instead of the password.
<code>repo</code>	The name for the repository.

Parameter	Description
chart_file	The Helm Chart archive.
owner	The owner of the package.

Install a package

To install a Helm chart from the registry, execute the following command:

```
helm repo add --username {username} --password {password} {repo}
https://forgejo.example.com/api/packages/{owner}/helm
helm repo update
helm install {name} {repo}/{chart}
```

Parameter	Description
username	Your Forgejo username.
password	Your Forgejo password or a personal access token.
repo	The name for the repository.
owner	The owner of the package.
name	The local name.
chart	The name Helm Chart.
