1.7.8.6

Git v1.7.8.6 Release Notes ==========================

Fixes since v1.7.8.5 --------------------

- An error message from ’git bundle’ had an unmatched single quote pair in it.
- ’git diff --histogram’ option was not described.
- Documentation for ’git rev-list’ had minor formatting errors.
- ’git imap-send’ carried an unused dead code.
- The way ’git fetch’ implemented its connectivity check over received objects was overly pessimistic, and wasted a lot of cycles.
- Various minor backports of fixes from the ’master’ and the ’maint’ branch.

Also contains minor fixes and documentation updates.
