```
title: Iconify for Tailwind CSS
replacements:
  - code: "60,000"
    value: "${counters.icons}"
  - code: "60k"
    value: "${counters.icons-short}"
```

Iconify for Tailwind CSS

Iconify plugin for Tailwind CSS makes it easy to use icons in Tailwind CSS.

You can use over 60,000 open source icons and custom icons with minimal code.

Plugins

There are separate plugins for Tailwind 3 and Tailwind 4.

Tailwind 3 plugin is also usable with Tailwind 4, but requires creating a configuration file.

Follow one of these links for documentation:

- Documentation for Tailwind 4 plugin
- Documentation for Tailwind 3 plugin
