error/tool uploadcourse/csvfileerror

This error message appears when a file is uploaded to *Site administration>Courses>Upload courses* and the file is either:

- an incorrectly formatted .csv file, in which case, please check Upload courses

or

- a SCORM package, (such as from Captivate) See SCORM settings

or

- a completely different file such as an .mbz or .tgz file (a Moodle course backup)

Note: If you see this errror when uploading an .mbz or tgz file, you should be using Course restore instead.
