Sharing files in a chat

You can share files in a chat in three ways.

First, you can simply drag'n'drop them on the chat.

Second, you can select a file from your Nextcloud Files or a file manager by choosing the little paperclip and selecting where you'd like to pick the file from.

 Upload from device

☺

Here's the new promo materials

You can add more files until you are done and decide to share the files. You can also add a text caption to your shared files, providing a brief description or context.

Polls in chat

You can create a poll in groups chats from the new message additional actions.

A poll has two settings:

- **Anonymous polls:** Participants cannot see who voted for which option.
- **Allow multiple choices:** Participants can select more than one option.

You can also import polls for auto-fill and export polls as JSON files to save them locally.

You can close a poll from the poll dialog.

How are you today

Open poll • 0 votes

☐ Good

☐ Bad

Submit vote

Export draft to file

End poll

As a moderator, you can create the poll directly or you can save it as a draft to edit it later.

Answer 2

Bad
