# Screen sharing

Click the monitor icon in the toolbar to share your screen.

> “ □□
>
> If you have not yet given permission to the browser or the Talk Desktop client to share your screen, you might be prompted to do so when you click `Share screen`. Please click on `Allow` to grant the browser or Talk Desktop client access to your screen.

Depending on your browser or the Talk Desktop client, you will get the option to share a monitor, an application window, or a single browser tab. If video from your camera is also available, other participants will see it in a small presenter view next to the screen share.

To stop sharing your screen, click the `Share screen` button again and choose `Stop screensharing`.

You can zoom in and out of the shared screen with the mouse wheel, double-click, or touchpad gestures.
