

# Update channels

Whether you want the latest features, want to help with testing, or just want to wait until everything is perfectly ready to go, we've got options for you.

The desktop client has 4 update channels: *Enterprise*, *Stable*, *Beta* and *Daily*.

| Channels   |                                                                                                        |
|------------|--------------------------------------------------------------------------------------------------------|
| Enterprise | Special version for enterprise customers for the best possible experience.                             |
| Stable     | Latest feature releases ready for most users at minimal risk.                                          |
| Beta       | Short-term versions created in preparation for testers to report bugs against before a stable release. |
| Daily      | Daily versions to reproduce bugs and to follow the development of the next stable version.             |
