gc

SessionHandlerInterface::gc

Cleanup old sessions

ENTITY

public

int

false

SessionHandlerInterface::gc

int

max_lifetime

Cleans up expired sessions. Called by `session_start`, based on session.gc_divisor, session.gc_probability and session.gc_maxlifetime settings.

ENTITY

`max_lifetime`
Sessions that have not updated for the last `max_lifetime` seconds will be removed.

ENTITY

Returns the number of deleted sessions on success, ENTITY. Note this value is returned internally to PHP for processing.

ENTITY

ENTITY	ENTITY

7.1.0	Prior to this version, the function returned ENTITY on success.
