Modules command-line interface (CLI)

The following modules have a command-line interface.

- `ast <ast-cli>`
- `asyncio <asyncio-cli>`
- `base64`
- `calendar <calendar-cli>`
- `code`
- `compileall <compileall-cli>`
- `cProfile`: see `profiling.tracing <profiling-tracing-cli>`
- `dis <dis-cli>`
- `doctest <doctest-cli>`
- `!encodings.rot_13`
- `ensurepip <ensurepip-cli>`
- `filecmp`
- `fileinput`
- `ftplib`
- `gzip <gzip-cli>`
- `http.server <http-server-cli>`
- `idlelib <idlelib-cli>`
- `inspect <inspect-module-cli>`
- `json <json-commandline>`
- `mimetypes <mimetypes-cli>`
- `pdb <pdb-cli>`
- `pickle <pickle-cli>`
- `pickletools <pickletools-cli>`
- `platform <platform-cli>`
- `poplib`
- `profiling.sampling <profiling-sampling>`
- `profiling.tracing <profiling-tracing-cli>`
- `pstats <pstats-cli>`
- `py_compile <py_compile-cli>`
- `pyclbr`
- `pydoc`
- `quopri`
- `random <random-cli>`
- `runpy`
- `site <site-commandline>`

- `sqlite3 <sqlite3-cli>`
- `symtable <symtable-cli>`
- `sysconfig <sysconfig-cli>`
- `tabnanny`
- `tarfile <tarfile-commandline>`
- `!this`
- `timeit <timeit-command-line-interface>`
- `tokenize <tokenize-cli>`
- `trace <trace-cli>`
- `turtledemo`
- `unittest <unittest-command-line-interface>`
- `uuid <uuid-cli>`
- `venv <venv-cli>`
- `webbrowser <webbrowser-cli>`
- `zipapp <zipapp-command-line-interface>`
- `zipfile <zipfile-commandline>`

See also the `Python command-line interface <using-on-general>`.
