bf.madd

□□

- Examples

Adds one or more items to a bloom filter. If the specified bloom filter does not exist, a bloom filter is created with the provided name with default properties.

If you want to create a bloom filter with non-default properties, use the `BF.INSERT` or `BF.RESERVE` command.

Examples

```
127.0.0.1:6379> BF.MADD key item1 item2
1) (integer) 1
2) (integer) 1
127.0.0.1:6379> BF.MADD key item2 item3
1) (integer) 0
2) (integer) 1
127.0.0.1:6379> BF.MADD key_new item1
1) (integer) 1
```
