

WP_CLI::error_multi_line()

- [Usage](#)
 - [Notes](#)
 - [Related](#)
-

Display a multi-line error message in a red box. Doesn't exit script.

Usage

```
WP_CLI::error_multi_line( $message_lines )
```

\$message_lines (array<string|\WP_Error|\Exception|\Throwable>) Multi-line error message to be displayed.

@return (void)

Notes

Error message is written to STDERR.

Internal API documentation is generated from the WP-CLI codebase on every release. To suggest improvements, please submit a pull request.
