FlexItem

- Usage
- Props
  - display: CSSProperties['display']
  - isBlock: boolean

A layout component to contain items of a fixed width within `Flex`.

Usage

See `flex/README.md#usage` for how to use `FlexItem`.

Props

`display`: `CSSProperties['display']`

The CSS display property of `FlexItem`.

- Required: No

`isBlock`: `boolean`

Determines if `FlexItem` should render as an adaptive full-width block.

- Required: No
- Default: `false`
