title: graphql_register_initial_types
hookType: action hookGroup:
schema-registration plugin: wp-
graphql

graphql_register_initial_type
s

```
do_action( 'graphql_register_initial_types', $type_registry );
```

Fire an action as the type registry is initialized. This executes before the `graphql_register_types` action to allow for earlier hooking

- **Type:** action
- **Group:** Schema Registration
- **Since:** 0.4.3
- **Source File:** `plugins/wp-graphql/src/Registry/TypeRegistry.php`

Parameters

- `$registry` (`\WPGraphQL\Registry\TypeRegistry`): Instance of the TypeRegistry

Source

- [plugins/wp-graphql/src/Registry/TypeRegistry.php:312](#)

```
do_action( 'graphql_register_initial_types', $type_registry );
```
