title:

graphql_post_object_cursor_meta_
key hookType: filter hookGroup:
connections plugin: wp-graphql

graphql_post_object_cursor_
meta_key

```
apply_filters( 'graphql_post_object_cursor_meta_key', $key, $meta_key, $meta_type, $order,  
$this );
```

Allow filtering the meta key used for cursor based pagination

- **Type:** filter
- **Group:** Connections
- **Since:** 0.0.5
- **Source File:** `plugins/wp-graphql/src/Data/Cursor/PostObjectCursor.php`

Parameters

- `$key` (`string`): The meta key to use for cursor based pagination
- `$meta_key` (`string`): The original meta key
- `$meta_type` (`string`): The meta type
- `$order` (`string`): The order direction
- `$cursor` (`object`): The PostObjectCursor instance
