

The diagram illustrates the structure of a packet header and body. The header is 14 bytes long, consisting of a 2-byte flag field, a 2-byte length field, and a 10-byte reserved field. The body is 100 bytes long, consisting of a 2-byte flag field, a 2-byte length field, and a 96-byte reserved field. The diagram shows the layout of these fields and the overall structure of the packet.
