Post via email

To post to WordPress by email you must set up a secret email account with POP3 access. Any mail received at this address will be posted, so it's a good idea to keep this address very secret. Here are three random strings you could use: `y3QsQPzA`, `2ipkq5mR`, `AfkHqxDM`.

Update Services

When you publish a new post, WordPress automatically notifies the following site update services. For more about this, see [Update Services](#) on the Codex. Separate multiple service URLs with line breaks.
